3.2s
DURATION

STATUS	NAME	DESC	META	TIME	ERROR	NOTES
PASSED	Widget data auto-refreshes at configured interval dashboard	Verifies widget data refreshes automatically without page reload.	normal @Emma Workflow Dashboard dashboard refresh	600ms	-	
PASSED	Session expires after inactivity timeout authentication	Verifies that user session expires after configured inactivity period.	critical @Sarah Security Authentication auth security	609ms	-	
PASSED	Dashboard loads within performance threshold dashboard	Verifies dashboard page loads within 3 second threshold.	critical @Quentin Performance Dashboard performance ui	636ms	-	
PASSED	User can login with valid credentials authentication	Verifies that users can successfully authenticate with valid username and password.	blocker @Quentin E2E Critical Scenarios Authentication auth ui	631ms	-	
PASSED	All dashboard widgets render correctly dashboard	Verifies all configured widgets are visible and display data.	critical @Emma Workflow Dashboard dashboard widgets ui	632ms	-	
FAILED	User sees error message with invalid credentials authentication	Verifies that appropriate error message is displayed when login fails.	critical @Quentin E2E Critical Scenarios Authentication auth ui negative	638ms	<pre>Error: expect(received).toBe(expected) // Object.is equality Expected: false Received: true Error: expect(received).toBe(expected) // Object.is equality Expected: false Received: true at /Users/titus/Documents/GitHub Repos/Craft-Test- Report/example/tests/authentication.spec .ts:37:18</pre>	

STATUS	NAME	DESC	META	TIME	ERROR	NOTES
PASSED	Export to PDF generates valid document data-export	Verifies PDF export produces valid, downloadable document.	critical @Quentin Workflow Data Export export pdf	677ms	-	
PASSED	Export respects applied filters data-export	Verifies exported data only includes filtered results.	normal @Marcus Workflow Data Export export filters	370ms	-	
PASSED	Advanced filters narrow search results entity-search	Verifies advanced filter options correctly filter search results.	critical @Marcus Workflow Entity Search search filters	347ms	-	
PASSED	Export to Excel includes all columns data-export	Verifies Excel export contains all visible table columns.	critical @Emma Workflow Data Export export excel	407ms	-	
PASSED	Summary page displays all GUP metrics gup-summary	Verifies all required GUP metrics are visible on the Summary page.	blocker @Quentin E2E Critical Scenarios GUP in Summary GUP Summary ui	348ms	-	
SKIPPED	Historical scorecard data loads correctly lcpd-scorecard	Verifies historical scorecard data can be viewed and compared.	normal @Marcus Workflow Risk Assessment LCPD history	0ms	-	

STATUS	NAME	DESC	META	TIME	ERROR	NOTES
FAILED	Search handles special characters correctly entity-search	Verifies search correctly handles special characters and unicode.	minor @Sarah Workflow Entity Search search edge-case	363ms	Error: expect(received).toBe(expected) // Object.is equality Expected: "test" Received: "test&special" Error: expect(received).toBe(expected) // Object.is equality Expected: "test" Received: "test&special" at /Users/titus/Documents/GitHub Repos/Craft-Test- Report/example/tests/entity- search.spec.ts:54:28	
PASSED	Search returns matching entities entity-search	Verifies search returns all entities matching the query criteria.	blocker @Quentin E2E Critical Scenarios Entity Search search entity ui	397ms	-	
PASSED	Scorecard displays correct risk ratings lcpd-scorecard	Verifies that LCPD scorecard shows accurate risk ratings for all categories.	blocker @Quentin E2E Critical Scenarios Risk Assessment LCPD risk ui	361ms	-	
PASSED	GUP data refreshes when entity changes gup-summary	Verifies GUP data updates correctly when switching between entities.	critical @Marcus E2E Critical Scenarios GUP in Summary GUP ui	366ms	-	
PASSED	User receives real-time notifications notifications	Verifies notifications appear in real-time without page refresh.	critical @Emma Workflow Notifications notifications websocket ui	366ms	-	

STATUS	NAME	DESC	META	TIME	ERROR	NOTES
FAILED	Email notifications are triggered correctly notifications	Verifies email notifications are sent for configured events.	critical @Quentin Workflow Notifications notifications email integration	376ms	Error: expect(received).toBe(expected) // Object.is equality Expected: true Received: false Error: expect(received).toBe(expected) // Object.is equality Expected: true Received: false at /Users/titus/Documents/GitHub Repos/Craft-Test- Report/example/tests/notifications.spec. ts:55:19	
SKIPPED	Report data caching improves performance reports	Verifies report caching reduces load time on repeated access.	minor @Emma Performance Reporting reports performance cache	0ms	-	
PASSED	Scorecard calculations match backend values lcpd-scorecard	Verifies frontend scorecard values match API response data.	blocker @Sarah E2E Critical Scenarios Risk Assessment LCPD api integration	446ms	-	
PASSED	GUP Final PD is correctly calculated and displayed gup-summary	Verifies that GUP Final PD is correctly calculated and displayed on the Summary page for GUP entities.	blocker @Quentin E2E Critical Scenarios GUP in Summary GUP ui	593ms	-	
PASSED	Custom report templates render correctly reports	Verifies custom report templates produce expected output.	critical @Marcus Workflow Reporting reports templates ui	528ms	-	
PASSED	Scheduled reports run at configured time reports	Verifies scheduled reports execute at the configured time.	blocker @Quentin E2E Critical Scenarios Reporting reports scheduler	540ms	-	

STATUS	NAME	DESC	META	TIME	ERROR	NOTES
PASSED	Report sharing via email works reports	Verifies reports can be shared via email with attachments.	critical @Sarah Workflow Reporting reports email integration	552ms	-	
SKIPPED	Bulk user import from CSV user-management	Verifies bulk user import correctly processes CSV files.	normal @Marcus Administration User Management admin import	0ms	-	
PASSED	Language selection changes all UI text settings	Verifies language change updates all UI elements correctly.	normal @Marcus User Experience Settings settings i18n ui	516ms	-	
PASSED	Notification preferences are saved correctly notifications	Verifies user notification preferences persist across sessions.	normal @Emma Workflow Notifications notifications settings	650ms	-	
PASSED	Timezone setting affects all date displays settings	Verifies timezone preference correctly adjusts all timestamps.	normal @Sarah User Experience Settings settings timezone	553ms	-	
PASSED	Theme preference persists across sessions settings	Verifies selected theme (dark/light) persists after logout/login.	minor @Emma User Experience Settings settings theme ui	637ms	-	
PASSED	Admin can create new user account user-management	Verifies admin users can successfully create new user accounts.	blocker @Sarah Administration User Management admin users ui	566ms	-	

STATUS	NAME	DESC	META	TIME	ERROR	NOTES
PASSED	User roles restrict access appropriately user-management	Verifies user role permissions are enforced correctly.	blocker @Sarah Security User Management security rbac	564ms	-
